

# Not-for-Profit Private Sector Financial Reporting Framework

## Project summary

The objective of the project is to develop a reporting framework that is simple, proportionate, consistent and transparent for all not-for-profit (NFP) private sector entities in Australia.

Features of such a framework could include additional reporting tiers with:

- simplified recognition and measurement requirements that are capable of being audited and enforced; and
- disclosure of service performance and other information integral to financial reporting in the NFP sector, such as fundraising and transactions with related parties to the extent justified by evidence.

AASB 2019-4 applies to annual reporting periods ending on or after **30 June 2020**.

**September 2019      Disclosure of Compliance with R&M in SPFS - AASB 1054 (ED 293)**

The Board decided:

- (a) NFP entities required by legislation or otherwise to comply with AASB 1054 *Australian Additional Disclosures*, such as medium and large charities with revenue greater than \$250,000, registered with the Australian Charities and Not-for-profits Commission (ACNC) and companies limited by guarantee lodging financial reports with ASIC will be required to make the disclosures about compliance with recognition and measurement (R&M) requirements of Australian Accounting Standards (AAS) in their special purpose financial statements (SPFS) for annual reporting periods ending on or after 30 June 2020.

The Board noted the ACNC expressed support for increased transparency of the financial reporting in the sector. Also, the work is on-going to consider further changes to the financial reporting framework for NFP entities.

- (b) for each material disclosed accounting policy disclose whether it does not comply with AAS R&M requirements or the compliance has not been assessed.
- (c) on the basis of the assessment in (b), disclosure is made as to whether overall the AAS R&M requirements are complied with (no instances of non-compliance or non-assessment), not complied with (1 or more instances of non-compliance) or not assessed (1 or more instances of non-assessment). Where there is known non-compliance an indication of the non-compliance should be disclosed.
- (d) disclosure of compliance with the R&M requirements in AAS excludes consolidation and the equity method of accounting as these are the subject of separate disclosures;
- (e) relief from determining whether or not its interests in other entities give rise to interests in subsidiaries, associates or joint ventures is only available where there is no legislative requirement to make this determination; and
- (f) the proposed implementation guidance and illustrative examples in ED 293 will be updated to reflect the above decisions.

The Board noted its amended proposals do not require more information than the NFP entities already provide, as they may indicate they have not made an assessment of compliance with AAS R&M. The Board acknowledged that there is less clarity in SPFS R&M requirements for charities and the new disclosures provide appropriate information for users without undue cost to preparers. Although the scope of the proposals has been limited to NFP entities, the Board decided that a fatal-flaw review version for public comment was not required as the proposals are less onerous.

**February 2019**      The Board noted that State and Territory consumer protection agencies are supportive of working with the Board and other not-for-profit (NFP) regulators on the issue of simplifying financial reporting in the NFP private sector.

**November 2018**      The Board welcomed ACNC Commissioner Dr Gary Johns to the meeting. The Board and Dr Johns agreed on the importance of consistent and appropriate external reporting for NFP private sector entities (including non-ACNC regulated entities). The Board will begin consulting with a wide range of stakeholders on the reporting framework options for the NFP private sector.

**August 2018**

## **The impact of the AASB's revised Conceptual Framework proposals on not-for-profit private sector entities**

The Board decided to issue a frequently asked question (FAQ) to help charities, companies limited by guarantee, incorporated associations, cooperatives and other not-for-profit private sector (NFP) entities understand the impact of the proposals in AASB's Consultation Paper ITC 39.

The FAQ will outline the Board's expectation that it will, in consultation with the Australian Charities and Not-for-profits Commission's (ACNC) and state and territory regulators, explore three tiers of reporting for NFP entities; each with consistent, comparable and transparent reporting requirements – dependent on recommendations from the recent ACNC legislative review. It will explain how special purpose financial statements (SPFS) are expected to be replaced for NFP entities with reporting requirements that are proportionate, fair and balance user needs with costs to preparers as outlined below:

- (a) Bottom tier – most likely be cash accounting, with a statement of resources and commitments (for ACNC NFP's voluntary basis only, supporting completion of the Annual Information Statement);
- (b) Middle tier either Tier 2 General Purpose Financial Statements (GPFS) [full recognition and measurement with simplified disclosure] or a modified accrual framework [simplified recognition, measurement and disclosure]; and
- (c) Top tier –either Tier 1 [full recognition, measurement and disclosure] or Tier 2 GPFS framework (depending on where the middle tier lands).

The Board also decided to explore the possibility of putting NFP thresholds and requirements into the existing AASB 1053 Application of Tiers of Australian Accounting Standards. This would ensure that all NFPs required by legislation or otherwise to prepare financial statements in accordance with Australian Accounting Standards would prepare comparable, consistent and transparent financial statements using the Bottom, Middle or Top tiering requirements.

The FAQ will also explain that the Board will perform extensive consultation on a broader range of proposals for NFPs compared to what was contained in ITC 39. In addition to looking at the three tiers of reporting, the Board will be looking at service performance reporting (also known as impact reporting), remuneration reporting, fundraising and related party disclosures. Transitional relief for NFP entities would also be explored at that time.

The Board noted that NFP entities could still assist with the proposals in ITC 39 by providing feedback on whether they prefer the existing Tier 2 GPFS framework – Reduced Disclosure Requirements or the newly proposed Tier 2 GPFS framework – Specified Disclosure Requirements for the Top or Middle tiers. This will help to inform the AASB which option they should pursue in further consultation.

**December 2017**

The Board will provide the summary of the feedback from the outreach sessions held in November regarding the financial reporting framework for charities to the ACNC legislative review.

### **8.0 Cover Memo – Financial Reporting Framework**

**8.1** Staff Collation of Feedback from Outreach Sessions – Improving the financial reporting framework for Australian charities

The Board approved the project plan for considering the financial reporting framework for public sector entities, with minor amendments. The Board also supported a field work proposal from an academic research group as the research may help inform decisions about the reporting framework.

**8.2** Project plan for the Financial Reporting Framework for public sector entities

**8.3** Staff Paper – Research Project Facilitation

**October 2017**

The Board noted the Consultation Paper is to assist charities to provide input to the legislative review of the ACNC, commencing 3 December 2017. Accordingly regulators including the ACNC and relevant State regulators will be engaged to participate in the consultation process. The Board is particularly interested in consulting with users of charity financial statements.

**August 2017**

**Australian Financial Reporting Framework – Draft Research Report on Charities**

Staff provided a progress report on the AASB Research Report on financial reporting requirements for charities. The Board decided the research to date was sufficient as a basis for identifying (a) issues with the current reporting framework in Australia for charities and (b) the findings and implications from the research relevant to improving the reporting framework. Accordingly, the Board decided the Research Report (together with an executive summary) should be published as soon as possible. The Research Report will provide a context for the subsequent Consultation Paper on possible options for improving the financial reporting framework applicable to charities registered with the Australian Charities and Not-for-profits Commission (ACNC), an early draft of which was also discussed by the Board (see below).

**Australian Financial Reporting Framework – Draft Consultation Paper on Charities**

In relation to the Consultation Paper referred to above, the Board decided:

- (a) the Paper should clearly explain the basis for considering changing the current financial reporting framework for charities and the respective roles of the AASB and regulators in developing a revised framework;
- (b) to issue the Paper to enable adequate input into the legislative review of the ACNC, which is due to commence in December; and
- (c) key stakeholders should be engaged early in the process, with outreach planned jointly with the ACNC to discuss possible options for improving the framework.

The Board and the ACNC Commissioner, Susan Pascoe, agreed the ACNC should have significant input into the Paper.
