Roundtable Discussions

Have your say on Reduced Disclosure Requirements

Released in January 2017, Exposure Draft ED 277 *Reduced Disclosure Requirements for Tier 2 Entities* proposes a new set of principles for the AASB to determine required disclosures for Tier 2 entities. These changes aim to make financial reports more relevant and concise for many not-for-profit and non-listed entities.

The AASB is seeking your input on ED 277. This session is an opportunity for you to provide valuable feedback directly to AASB members and staff, to assist in determining Reduced Disclosure Requirements.

This roundtable session will:

- help you understand the decision-making process behind the disclosures
- allow you to provide informal feedback on the proposals
- assist the AASB in understanding what disclosures are important to you.

Please register your interest in attending via the links below.
