Australian Accounting Standard AASB 1048 Interpretation of Standards(as amended) is set out in paragraphs 1 – 13. All the paragraphs have equal authority. Paragraphs in **bold type** state the main principles. AASB 1048 is to be read in the context of other Australian Accounting Standards, including AASB 1057 *Application of Australian Accounting Standards*. In the absence of explicit guidance, AASB 108 *Accounting Policies, Changes in Accounting Estimates and Errors* provides a basis for selecting and applying accounting policies.

## Preface

### Introduction

---

The Australian Accounting Standards Board (AASB) is an Australian Government entity under the *Australian Securities and Investments Commission Act 2001*. The AASB develops, issues and maintains Australian Accounting Standards, including Interpretations. These are to be applied by:

- (a) entities required by the *Corporations Act 2001* to prepare financial reports;
- (b) governments in preparing financial statements for the whole of government and the General Government Sector (GGS); and/or
- (c) entities in the private or public for-profit or not-for-profit sectors that are reporting entities or that prepare general purpose financial statements.

AASB 1053 *Application of Tiers of Australian Accounting Standards* establishes a differential reporting framework consisting of two tiers of reporting requirements for preparing general purpose financial statements:

- (a) Tier 1: Australian Accounting Standards; and
- (b) Tier 2: Australian Accounting Standards – Reduced Disclosure Requirements.

### What does this Standard require?

---

This Standard identifies the Australian Interpretations and classifies them into two groups: those that correspond to an International Accounting Standards Board (IASB) Interpretation and those that do not. Entities are required to apply each relevant Australian Interpretation in preparing financial statements that are within the scope of the Standard.

In respect of the first group (Table 1), it is necessary for those Australian Interpretations, where relevant, to be applied in order for an entity to be able to make an explicit and unreserved statement of compliance with International Financial Reporting Standards (IFRS Standards). The IASB defines IFRS Standards to include both IFRIC and SIC Interpretations.

In the second group (Table 2), this Standard lists the other Australian Interpretations, which do not correspond to the IASB Interpretations, to assist financial statement preparers and users to identify the other authoritative pronouncements necessary for compliance in the Australian context.

This Standard (see Table 3) also updates references to the *Framework for the Preparation and Presentation of Financial Statements* in other Standards to refer to an amended version of the *Framework*, as identified in this Standard.

The Standard will be reissued when necessary to keep the Tables up to date.

### Why have we issued this Standard?

---

This Standard clarifies that all Australian Interpretations have the same authoritative status. Those that incorporate the IASB Interpretations must be applied to achieve compliance with IFRS Standards. Australian Interpretations issued by the AASB comprise both AASB and UIG Interpretations. UIG Interpretations were developed by the Urgent Issues Group, a former committee of the AASB.

This Standard also updates references in other Standards to the *Framework for the Preparation and Presentation of Financial Statements* to subsequent versions.

## Need for a Service Standard

### Australian Interpretations

In the Australian context, Australian Interpretations do not have the same legal status as Standards (delegated legislation) and are treated as ‘external documents’ by the *Acts Interpretation Act 1901* and the *Legislation Act 2003*. Although references in one Standard to a second Standard are ambulatory (automatically moving forward to refer to the most recently-issued version of the second Standard), references in a Standard to external documents are stationary (being fixed in time to refer to the contents of the external document when the Standard was issued). A

simple reference to an Australian Interpretation in a Standard can refer only to the Interpretation that existed when the Standard was issued. It cannot refer to any revised version of the Interpretation that may exist at a later reporting date. However, a Standard can refer to a second Standard and, when the first Standard is applied at a later reporting date, the reference will be to the then-current version of the second Standard, even if it has been reissued since the first Standard was issued.

The service Standard approach, as applied to Australian Interpretations, involves issuing this Standard to list the Australian Interpretations, and referring to this Standard in every other Standard where necessary to refer to an Interpretation. This enables references to the Interpretations in all other Standards to be updated by reissuing the service Standard.

This approach preserves the status of Australian Interpretations as ‘external documents’ referred to in a Standard. It does not treat the Interpretations as delegated legislation or confer ambulatory status on the reference. In each Standard where there is a need to refer to an Australian Interpretation, the reference will be to this Standard, phrased as “Interpretation [number] [title] as identified in AASB 1048” (or similar). This reference, being to another Standard, is ambulatory and will refer to the version of this Standard that is in force from time to time. AASB 1048 itself will contain the direct references to the external documents and will be reissued periodically.

This approach to clarifying the status of Australian Interpretations ensures there is no difference between the status in the hierarchy accorded to Interpretations in IAS 8 *Accounting Policies, Changes in Accounting Estimates and Errors* compared with AASB 108 *Accounting Policies, Changes in Accounting Estimates and Errors*.

### **Australian conceptual framework**

In the Australian context, an Australian conceptual framework pronouncement, such as the *Framework for the Preparation and Presentation of Financial Statements* (the *Framework*), also does not have the same legal status as a Standard (delegated legislation) and, like Interpretations, is treated as an ‘external document’ by the *Acts Interpretation Act 1901* and the *Legislation Act 2003*.

The service Standard approach, as applied to the Australian conceptual framework, involves issuing this Standard to update references to the *Framework* in other Standards. This approach preserves the status of the *Framework* as an ‘external document’ referred to in a Standard. It does not treat the *Framework* as delegated legislation or confer ambulatory status on the reference.

## Comparison with international pronouncements

There is no International Accounting Standards Board (IASB) Standard that directly corresponds to AASB 1048. However, Table 1 in AASB 1048 (see paragraph 6) contains a list of Australian Interpretations identifying the corresponding IASB Interpretations.

### Tier 1

For-profit entities complying with the Australian Interpretations designated in this Standard as corresponding to the IASB Interpretations also comply with the Interpretations referred to by the IASB in its definition of International Financial Reporting Standards (IFRS Standards).

Not-for-profit entities' compliance with IASB Interpretations will depend on whether any "Aus" paragraphs or Interpretations that specifically apply to not-for-profit entities provide additional guidance or contain applicable requirements that are inconsistent with IASB Interpretations.

### Tier 2

Entities preparing general purpose financial statements under Australian Accounting Standards – Reduced Disclosure Requirements (Tier 2) will not be in compliance with all IASB Interpretations.

AASB 1053 *Application of Tiers of Australian Accounting Standards* explains the two tiers of reporting requirements.

## Conceptual frameworks

In relation to references to the *Conceptual Framework for Financial Reporting* and the *Framework for the Preparation and Presentation of Financial Statements* in other Standards, the approach taken in this Standard to clarifying the applicable framework pronouncement ensures there is no difference between the version of the conceptual framework referred to in IAS 8 *Accounting Policies, Changes in Accounting Estimates and Errors* and in AASB 108 *Accounting Policies, Changes in Accounting Estimates and Errors*, and in other Standards.

## Accounting Standard AASB 1048

The Australian Accounting Standards Board made Accounting Standard AASB 1048 *Interpretation of Standards* under section 334 of the Corporations Act 2001 on 12 December 2017

This compiled version of AASB 1048 applies to annual periods beginning on or after 1 January 2020. It incorporates relevant amendments contained in other AASB Standards made by the AASB up to and including 21 May 2019 (see Compilation Details).

## Accounting Standard AASB 1048 *Interpretation of Standards*

### Objective

1 The objective of this Standard is to provide an up-to-date listing of Australian Interpretations and to ensure the effectiveness of references in Australian Accounting Standards to Australian Interpretations and to the *Framework for the Preparation and Presentation of Financial Statements (Framework)* and the *Conceptual Framework for Financial Reporting (Conceptual Framework)*. AASB and UIG Interpretations are referred to collectively in this Standard as Australian Interpretations.

AusCF1 AusCF paragraphs included in this Standard apply only to:

- (a) not-for-profit entities; and
- (b) for-profit entities that are not applying the *Conceptual Framework for Financial Reporting* (as identified in this Standard).

Such entities are referred to as ‘AusCF entities’. For AusCF entities, the term ‘reporting entity’ is defined in AASB 1057 *Application of Australian Accounting Standards* and Statement of Accounting Concepts SAC 1 *Definition of the Reporting Entity* also applies. For-profit entities applying the *Conceptual Framework for Financial Reporting* (as set out in paragraph Aus1.1 of the *Conceptual Framework*) shall not apply AusCF paragraphs.

### Application

2 **This Standard applies to annual reporting periods ending on or after 31 December 2017.**

3 **This Standard may be applied to annual reporting periods that end before 31 December 2017.**

### Interpretations

4 This Standard refers to all Australian Interpretations currently approved by the AASB and applicable to any period<sup>1</sup> specified in paragraph 2 (by either mandatory or early application), classified according to whether they correspond to Interpretations adopted by the International Accounting Standards Board (IASB).

5 For ease of presentation, the Australian Interpretations are set out in two separate tables: in paragraph 6, Table 1 lists those corresponding to IASB Interpretations and, in paragraph 8, Table 2 lists the other Interpretations. Each reference to an Interpretation in a row in each of the Tables 1 and 2 is to be treated as a separate provision of this Standard.

## Australian Interpretations corresponding to IASB Interpretations

6 **An entity shall apply each relevant Australian Interpretation listed in Table 1 below.**

- 11 This Standard updates references to the *Conceptual Framework* in Australian Accounting Standards (including Interpretations) to the relevant amended version of the *Conceptual Framework*. The principal application date listed in each row of Table 3 is a reference to annual reporting periods beginning or ending (as indicated) on or after the date specified. An entity may elect to apply an amended version of the pronouncement to annual reporting periods in advance of that stated in Table 3, subject to any early application paragraphs.

- AusCF11 Notwithstanding paragraph 11, in respect of AusCF entities, this Standard updates references to the *Framework* in Australian Accounting Standards (including Interpretations) to the relevant amended version of the *Framework*. The principal application date listed in each row of Table 3 is a reference to annual reporting periods beginning or ending (as indicated) on or after the date specified. An entity may elect to apply an amended version of the pronouncement to annual reporting periods in advance of that stated in Table 3, subject to any early application paragraphs.

## Commencement of the legislative instrument

- 12 For legal purposes, this legislative instrument commences on 30 December 2017.

## Withdrawal of AASB pronouncements

---

- 13 This Standard repeals AASB 1048 *Interpretation of Standards* issued in August 2015. Despite the repeal, after the time this Standard starts to apply under section 334 of the Corporations Act (either generally or in relation to an individual entity), the repealed Standard continues to apply in relation to any period ending before that time as if the repeal had not occurred.

[Note: When this Standard applies under section 334 of the Corporations Act (either generally or in relation to an individual entity), it supersedes the application of the repealed Standard.]

## Compilation details

### Accounting Standard AASB 1048 *Interpretation of Standards (as amended)*

*Compilation details are not part of AASB 1048.*

This compiled Standard applies to annual periods beginning on or after 1 January 2020. It takes into account amendments up to and including 21 May 2019 and was prepared on 2 March 2020 by the staff of the Australian Accounting Standards Board (AASB).

This compilation is not a separate Accounting Standard made by the AASB. Instead, it is a representation of AASB 1048 (December 2017) as amended by other Accounting Standards, which are listed in the Table below.
