COMPILATION DETAILS		

BASIS FOR CONCLUSIONS

Australian Accounting Standard AASB 1051 *Land Under Roads* (as amended) is set out in paragraphs 1 – 15 and Appendices A and D. All the paragraphs have equal authority. Paragraphs in **bold type** state the main principles. Terms defined in Appendix A are in *italics* the first time they appear in the Standard. AASB 1051 is to be read in the context of other Australian Accounting Standards, including AASB 1048 *Interpretation of Standards*, which identifies the Australian Accounting Interpretations, and AASB 1057 *Application of Australian Accounting Standards*. In the absence of explicit guidance, AASB 108 *Accounting Policies, Changes in Accounting Estimates and Errors* provides a basis for selecting and applying accounting policies.

Comparison with international pronouncements

AASB 1051 and International Public Sector Accounting Standards

International Public Sector Accounting Standards (IPSAS) are issued by the International Public Sector Accounting Standards Board (IPSASB).

Land under roads falls within the scope of IPSAS 17 *Property, Plant, and Equipment* (issued December 2006, as amended), but is not mentioned specifically.

IPSAS 33 *First-Time Adoption of Accrual Basis IPSASs* does not require the recognition of property, plant and equipment (which would include land under roads) for reporting periods beginning on a date within three years following the date of first adoption of accrual accounting in accordance with IPSAS. This means that, at the expiry of the transitional period, all holdings of land under roads would be required to be recognised under IPSAS 17 where they satisfy the recognition criteria.

AASB 1051 does not require the recognition of land under roads acquired before the end of the first reporting period ending on or after 31 December 2007. However, an entity may elect to recognise such land in accordance with this Standard.

Land under roads acquired after the end of the first reporting period ending on or after 31 December 2007 is accounted for under AASB 116 *Property, Plant and Equipment*.

AASB 1051 and International Financial Reporting Standards

Land under roads falls within the scope of IAS 16 *Property, Plant and Equipment*, which does not contain requirements or choices equivalent to this Standard for land under roads acquired before the end of the first reporting period ending on or after 31 December 2007.

Land under roads acquired after the end of the first reporting period ending on or after 31 December 2007 is accounted for under AASB 116. A comparison with the corresponding IAS 16 is presented with AASB 116.

This Standard allows an entity to elect, in certain circumstances, to apply the fair value or a previous revaluation under the “fair value or revaluation as deemed cost exemptions” in AASB 1 *First-time Adoption of Australian Accounting Standards* when recognising land under roads acquired before the end of the first reporting period ending on or after 31 December 2007. A comparison with the corresponding IFRS 1 *First-time Adoption of International Financial Reporting Standards* is presented with AASB 1.

Accounting Standard AASB 1051

The Australian Accounting Standards Board made Accounting Standard AASB 1051 *Land Under Roads* on 13 December 2007.

This compiled version of AASB 1051 applies to annual periods beginning on or after 1 July 2021. It incorporates relevant amendments contained in other AASB Standards made by the AASB up to and including 6 March 2020 (see Compilation Details).

Accounting Standard AASB 1051 *Land Under Roads*

Objective

- 1 The objective of this Standard is to specify the requirements for financial reporting of *land under roads* by local governments, government departments, General Government Sectors (GGSs) and whole of governments.

Application

- 2 **This Standard applies to general purpose financial statements of local governments, government departments and whole of governments, and financial statements of GGSs.**
- 3 **This Standard applies to annual reporting periods beginning on or after 1 July 2008.**
[Note: For application dates of paragraphs changed or added by an amending Standard, see Compilation Details.]
- 4 **This Standard may be applied to annual reporting periods beginning on or after 1 January 2005 but before 1 July 2008, provided there is early adoption for the same annual reporting period of the following pronouncements being issued at about the same time, as applicable:**
- (a) **AASB 1004 Contributions;**
 - (b) **AASB 1049 Whole of Government and General Government Sector Financial Reporting;**
 - (c) **AASB 1050 Administered Items;**
 - (d) **AASB 1052 Disaggregated Disclosures;**
 - (e) **AASB 2007-9 Amendments to Australian Accounting Standards arising from the Review of AASs 27, 29 and 31; and**
 - (f) **AASB Interpretation 1038 Contributions by Owners Made to Wholly-Owned Public Sector Entities.**
- 5 [Deleted by the AASB]
- 6 **When applicable, this Standard, together with the Standards referred to in paragraph 4, supersede:**
- (a) **AAS 27 Financial Reporting by Local Governments as issued in June 1996, as amended;**
 - (b) **AAS 29 Financial Reporting by Government Departments as issued in June 1998, as amended; and**
 - (c) **AAS 31 Financial Reporting by Governments as issued in June 1998, as amended.**

Land Under Roads

- 7 **Other Australian Accounting Standards (including AASB 116 Property, Plant and Equipment) apply to land under roads, except to the extent that this Standard requires or permits otherwise. This Standard does not apply to land under roads that are service concession assets in accordance with AASB 1059 Service Concession Arrangements: Grantors.**
- 8 **An entity may elect to recognise (including continue to recognise or to recognise for the first time), subject to satisfaction of the asset recognition criteria, or not to recognise (including continue not to**

recognise or to derecognise) as an asset, land under roads acquired before the end of the first reporting period ending on or after 31 December 2007.

- 9 An entity shall make a final election under paragraph 8 effective as at the first day of the next reporting period following the end of the first reporting period ending on or after 31 December 2007. Any adjustments that arise from a final election that is made effective as at that first day shall be made against the opening balance of accumulated surplus (deficiency) of that next reporting period.**
- 10 Adjustments arising under paragraph 9 include those relating to a revision of recognised amounts of previously recognised land under roads acquired before the end of the first reporting period ending on or after 31 December 2007, made to reflect a reassessment of the factors used to determine those recognised amounts. Any adjustments that arise from an election that is made effective:
- (a) before the first day of the next reporting period following the end of the first reporting period ending on or after 31 December 2007, is made against accumulated surplus (deficiency) of the earliest prior period presented, and therefore comparative data is adjusted; and
 - (b) on the first day of the next reporting period following the end of the first reporting period ending on or after 31 December 2007, is made against the opening balance of accumulated surplus (deficiency) of that next reporting period, and therefore comparative data is not adjusted.
- 11 An entity shall disclose its accounting policy for land under roads acquired before the end of the first reporting period ending on or after 31 December 2007, in each reporting period to which this Standard is applied.**
- 12 The nature and net amount of each adjustment made in accordance with paragraph 9 shall be disclosed.**
- 13 Where an entity recognises land under roads in accordance with paragraphs 8 and 9, but after the entity's first-time adoption of Australian equivalents to International Financial Reporting Standards (IFRSs), the entity may, in relation to land under roads, elect to adopt the fair value (as at the date of that election) or a previous revaluation under the "fair value or revaluation as deemed cost" exemptions contained in AASB 1 *First-time Adoption of Australian Equivalents to International Financial Reporting Standards*, as if it were adopting Australian equivalents to IFRSs for the first time.**
- 14 Paragraph 13 enables an entity that recognises land under roads acquired before the end of the first reporting period ending on or after 31 December 2007, after its first-time adoption of Australian equivalents to IFRSs and under paragraphs 8 and 9, to elect to:
- (a) measure the fair value of land under roads as at the date of the election made under paragraph 13 and use that fair value as the deemed cost;
 - (b) use an earlier revaluation of land under roads as its deemed cost; or
 - (c) use an earlier deemed cost of land under roads established from an event-driven fair value measurement as its deemed cost.
- 15 Land under roads acquired after the end of the first reporting period ending on or after 31 December 2007 is accounted for in accordance with AASB 116.

Appendix A

Defined terms

This Appendix is an integral part of AASB 1051.

land under roads Land under roadways, and road reserves, including land under footpaths, nature strips and median strips.

Appendix B

Comparison of AASB 1051 with AASs 27, 29 and 31

This Appendix accompanies, but is not part of, AASB 1051.

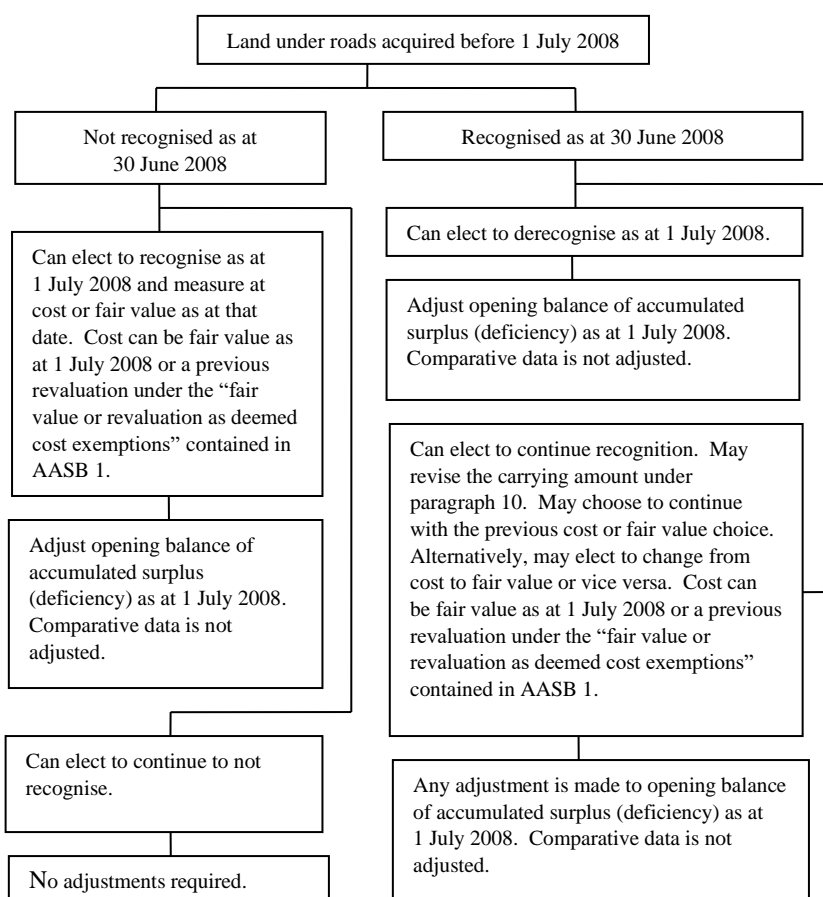

The requirements of this Standard differ from the requirements contained in AASs 27 *Financial Reporting by Local Governments*, AAS 29 *Financial Reporting by Government Departments* and AAS 31 *Financial Reporting by Governments* (as amended), and expresses the requirements generically. The main differences between AASB 1051 and AASs 27, 29 and 31 (as amended) are:

- (a) this Standard extends indefinitely the relief from the requirement to recognise land under roads acquired before the end of the first reporting period ending on or after 31 December 2007. AASs 27, 29 and 31 provided recognition relief only for a transitional period;
- (b) AASs 27, 29 and 31 encouraged entities to recognise land under roads as an asset wherever it can be measured reliably. Consistent with the AASB's policy of not including encouragements within Standards, this encouragement has not been included in this Standard;
- (c) this Standard notes that AASB 116 *Property, Plant and Equipment* applies to land under roads acquired after the end of the first reporting period ending on or after 31 December 2007. AASs 27, 29 and 31 would have required that AASB 116 be retrospectively applied to land under roads after the end of the transitional period;
- (d) in certain circumstances this Standard allows an entity, in relation to land under roads acquired before the end of the first reporting period ending on or after 31 December 2007, to elect to adopt the fair value (as at the date of that election) or a previous revaluation under the "fair value or revaluation as deemed cost" exemptions contained in AASB 1 *First-time Adoption of Australian Equivalents to International Financial Reporting Standards*, as if it were adopting Australian equivalents to IFRSs for the first time. AASs 27, 29 and 31 did not contain this relief;
- (e) AASs 29 and 31 did not explicitly require that, if the recognised amounts of land under roads acquired before the end of the first reporting period ending on or after 31 December 2007 are revised, up until the first day of the next reporting period, to reflect a reassessment of the factors used to determine those recognised amounts, the net amount of the resultant adjustments be made against accumulated surplus (deficiency) in the reporting periods in which the recognised amounts are revised; and
- (f) this Standard extends the requirements to General Government Sectors.

Appendix C Implementation guidance

This Appendix accompanies, but is not part of, AASB 1051.

The following diagram illustrates the effect of the requirements in this Standard for land under roads acquired before 1 July 2008, assuming an entity with a 1 July 2008 to 30 June 2009 reporting period makes a final election under paragraphs 8 and 9 as at 1 July 2008. (Note that land under roads acquired after 30 June 2008 is accounted for in accordance with AASB 116.)

Appendix D

Australian simplified disclosures for Tier 2 entities

This appendix is an integral part of the Standard.

AusD1 **Paragraphs 11 and 12 do not apply to entities preparing general purpose financial statements that apply AASB 1060 *General Purpose Financial Statements – Simplified Disclosures for For-Profit and Not-for-Profit Tier 2 Entities*.**

Compilation details

Accounting Standard AASB 1051 *Land Under Roads* (as amended)

Compilation details are not part of AASB 1051.

This compiled Standard applies to annual periods beginning on or after 1 July 2021. It takes into account amendments up to and including 6 March 2020 and was prepared on 29 October 2021 by the staff of the Australian Accounting Standards Board (AASB).

This compilation is not a separate Accounting Standard made by the AASB. Instead, it is a representation of AASB 1051 (December 2007) as amended by other Accounting Standards, which are listed in the table below.

Table of Standards

Standard	Date made	Effective date (<i>annual periods</i> ... <i>on or after</i> ...)	Application, saving or transitional provisions
AASB 1051	13 Dec 2007	(<i>beginning</i>) 1 Jul 2008	see (a) below
AASB 2013-9	20 Dec 2013	Pt B (<i>beginning</i>) 1 Jan 2014	see (b) below
AASB 1059	14 Jul 2017	(<i>beginning</i>) 1 Jan 2020	see (c) below
AASB 1060	6 Mar 2020	(<i>beginning</i>) 1 Jul 2021	see (d) below

- (a) Entities may elect to apply this Standard to annual reporting periods beginning on or after 1 January 2005 but before 1 July 2008, provided that the Standards and Interpretation listed in paragraph 4 of this Standard are also applied to such periods.
- (b) Early application of Part B of this Standard is not permitted.
- (c) Entities may elect to apply this Standard to annual periods beginning before 1 January 2020.
- (d) Entities may elect to apply this Standard to annual periods beginning before 1 July 2021.

Table of amendments

Paragraph affected	How affected	By ... [paragraph/page]
5	deleted	AASB 2013-9B [37, 38]
7	amended	AASB 1059 [page 26]
Appendix D	added	AASB 1060 [page 64]

Basis for Conclusions

This Basis for Conclusions accompanies, but is not part of, AASB 1051.

Introduction

BC1 This Basis for Conclusions summarises the Board's considerations in developing this Standard in the context of the Board's short-term review of the requirements in AAS 27 *Financial Reporting by Local Governments*, AAS 29 *Financial Reporting by Government Departments* and AAS 31 *Financial Reporting by Governments*.

Background

- BC2 The Board considered it timely to review the requirements in AASs 27, 29 and 31, in particular to:
- (a) review the extent to which local governments, government departments and governments should continue to be subject to requirements that differ from requirements applicable to other not-for-profit entities and for-profit entities contained in Australian Accounting Standards. The Board concluded that differences should be removed, where appropriate and timely, to improve the overall quality of financial reporting;
 - (b) bring requirements applicable to local governments, government departments and governments up-to-date with contemporary accounting thought;
 - (c) consider the implications of the outcomes of its project on the harmonisation of Generally Accepted Accounting Principles (GAAP) and Government Finance Statistics (GFS), in particular on the requirements in AAS 31;
 - (d) decide whether the encouragements in AASs 27, 29 and 31 should be made mandatory or removed; and
 - (e) remove uncertainty in the application of cross-references to other Australian Accounting Standards and the override provisions in AASs 27, 29 and 31 that made the requirements in AASs 27, 29 and 31 take precedence over other requirements.
- BC3 The Board considered the following alternative mechanisms for implementing the approach of updating and improving the requirements for local governments, government departments and governments:
- (a) review the requirements in AASs 27, 29 and 31 and where appropriate:
 - (i) amend other Australian Accounting Standards to pick up any issues that are addressed in AASs 27, 29 and 31 that are not adequately addressed in the latest Australian Accounting Standards and have them apply to local governments, government departments and governments; or
 - (ii) create public sector specific topic-based Standards; and consequently withdraw AASs 27, 29 and 31; or
 - (b) review AASs 27, 29 and 31 and re-issue them in light of the latest Australian Accounting Standards, retaining/amending where necessary any issues that are addressed in AASs 27, 29 and 31 that are not adequately addressed in the latest Australian Accounting Standards.
- BC4 The Board chose alternative (a) given the improvements in the quality of financial reporting by local governments, government departments and governments since AASs 27, 29 and 31 were first issued.
- BC5 Where the Board identified that the material in AASs 27, 29 and 31 could be improved within time and resource constraints, improvements have been made. Much of the material in AASs 27, 29 and 31 has been retained substantively unamended. Improvements will be progressed in due course in line with the AASB's Public Sector Policy Paper *Australian Accounting Standards and Public Sector Entities*.
- BC6 The first stage of the short-term review of the requirements in AASs 27, 29 and 31 was the preparation of a paragraph-by-paragraph analysis of each of AASs 27, 29 and 31, listing each paragraph of each Standard alongside corresponding Standards or other pronouncements that would apply to local governments, government departments or governments in the absence of AASs 27, 29 and 31. The Board's conclusions and rationale for the treatment of each paragraph in the context of the review were also provided in the

analysis. The Board's primary focus was on dealing with the requirements from the three Standards in such a way as to not leave a vacuum.

- BC7 Each paragraph from AASs 27, 29 and 31 was classified as being:
- (a) no longer needed or adequately dealt with in other Standards;
 - (b) more appropriately dealt with in other Standards; or
 - (c) not adequately and/or appropriately dealt with in other Standards and therefore should be retained or improved and incorporated into other Standards.
- The paragraph-by-paragraph analyses considered by the AASB in developing the Exposure Draft ED 156 *Proposals Arising from the Short-term Review of the Requirements in AAS 27, AAS 29 and AAS 31* that gave rise to this Standard are available on the AASB website. They support, but do not form part of, this Basis for Conclusions.
- BC8 In reviewing the paragraphs, the Board noted that some material in AASs 27, 29 and 31 would, under the current style of writing Standards, be located in a separate Basis for Conclusions. Given the short-term nature of the review of AASs 27, 29 and 31, the Board concluded that explanations of technical issues that both originated in and are being relocated from AASs 27, 29 and 31 should, when appropriate, be located in the body of the Standard to which the relevant requirements are being relocated.
- BC9 The Board decided not to retain the illustrative general purpose financial reports provided in AASs 27, 29 and 31, because their purpose, which was to provide an educational tool in the initial stages of accrual reporting by local governments, government departments and governments, is no longer needed.
- BC10 The remainder of this Basis for Conclusions focuses on issues specific to land under roads.

Land Under Roads

- BC11 The Board decided to issue this Standard as part of the short-term review of the requirements in AASs 27, 29 and 31 and to amend the previous transitional relief for land under roads, to allow entities to elect whether to recognise land under roads acquired before the end of the first reporting period ending on or after 31 December 2007. This decision is in acknowledgement of the potentially onerous demands on entities if they were to be required to retrospectively identify, assess the recognition criteria, recognise and measure land under roads previously acquired.
- BC12 The Board decided that a final election relating to the recognition of land under roads acquired before the end of the first reporting period ending on or after 31 December 2007 should be made effective as at the first day of the next reporting period. The final election can be made at any time prior to the completion of the financial statements for that next reporting period, but will be effective as at the first day of that period. The Board also decided that, to facilitate the transition to the new requirements, any adjustments arising from an election be made against accumulated surplus (deficiency); and that there would be no requirement to adjust comparative data for earlier periods when the election is made effective as at that first day. The Board noted that the extent to which an entity could change its recognition policy after that date would be constrained by the requirements of AASB 108 *Accounting Policies, Changes in Accounting Estimates and Errors* relating to voluntary change in accounting policy. Accordingly, subsequent changes to the accounting policy relating to the recognition of land under roads acquired before the end of the first reporting period ending on or after 31 December 2007 could only be made to recognise land under roads that it previously elected to not recognise (or, conceivably, vice versa) if that change could be justified based on paragraph 14 of AASB 108.
- BC13 Consistent with the entities that were subject to AASs 27, 29 and 31, this Standard applies to local governments, government departments (including for-profit government departments), and whole of governments. In addition, the application of this Standard extends to General Government Sectors (GGSs), which facilitates consistency in financial reporting by GGSs and whole of governments.
- BC14 In relation to GGSs and whole of governments, the Board considered the relationship between this Standard and the principle in AASB 1049 *Whole of Government and General Government Sector Financial Reporting* that GGSs and whole of governments should adopt optional treatments in Australian Accounting Standards that align with the principles or rules in the Australian Bureau of Statistics (ABS) Government Finance Statistics (GFS) Manual. The Board noted that the recognition relief provided in this Standard for land under roads is potentially inconsistent with GFS principles. However, the Board also noted that land under roads is not recognised under GFS in practice in certain circumstances, depending on the availability of information pertinent to measurement. Accordingly, the Board concluded that the impact of AASB 1049 relative to this Standard on the recognition of land under roads would be expected to be limited.

- BC15 Accordingly, the Board decided that the broad principle adopted in AASB 1049 that a GAAP option should be adopted where it aligns with GFS should be retained without an exception for land under roads. In making this decision, the Board also noted that any difference between GFS principles and practice is beyond the control of the AASB, and that land under roads does not create unique issues in a GAAP/GFS harmonisation context.
- BC16 The Board concluded that, in principle, land under roads is property and therefore falls within the scope of AASB 116. Accordingly, it is appropriate that land under roads acquired after the end of the first reporting period ending on or after 31 December 2007 is accounted for in accordance with AASB 116. In making this decision, the Board noted that AASB 116, including paragraph Aus15.1, requires:
- (a) assets acquired at no cost, or for a nominal cost, to be initially measured at fair value as at the date of acquisition where fair value can be measured reliably; and
 - (b) requires assets acquired at a cost to be initially measured at cost, but does not require adoption of the revaluation model. The Board also noted that issues relating to reliable measurement of fair value are not unique to land under roads and therefore could be dealt with in the same manner in which issues for other classes of assets are dealt with under AASB 116.
- BC17 The Board also concluded that further requirements should replicate, in certain circumstances, the fair value or a previous revaluation (in accordance with, for example, AASB 1041 *Revaluation of Non-Current Assets* or AASB 116 *Property, Plant and Equipment*) under the “fair value or revaluation as deemed cost” exemptions in AASB 1 *First-time Adoption of Australian Equivalents to International Financial Reporting Standards* on the basis that this would facilitate the initial recognition of land under roads under AASB 116. The requirements would be used when a local government, government department, GGS or whole of government elects to recognise and measure land under roads acquired before the end of the first reporting period ending on or after 31 December 2007 under paragraphs 8 and 9 of this Standard, after its first-time adoption of Australian equivalents to International Financial Reporting Standards.
