BASIS FOR CONCLUSIONS

Australian Accounting Standard AASB 1057 Application of Australian Accounting Standards is set out in paragraphs 1 – 27 and the Appendix. All the paragraphs have equal authority. Paragraphs in **bold type** state the main principles. Terms defined in the Appendix are in *italics* the first time they appear in the Standard. AASB 1057 is to be read in the context of other Australian Accounting Standards, including AASB 1048 Interpretation of Standards, which identifies the Australian Accounting Interpretations. In the absence of explicit guidance, AASB 108 Accounting Policies, Changes in Accounting Estimates and Errors provides a basis for selecting and applying accounting policies.
Preface

Introduction

The Australian Accounting Standards Board (AASB) is an Australian Government agency under the Australian Securities and Investments Commission Act 2001. The AASB develops, issues and maintains Australian Accounting Standards, including Interpretations. These are to be applied by:

(a) entities required by the Corporations Act 2001 to prepare financial reports;
(b) governments in preparing financial statements for the whole of government and the General Government Sector (GGS); and/or
(c) entities in the private or public for-profit or not-for-profit sectors that are reporting entities or that prepare general purpose financial statements.

AASB 1053 Application of Tiers of Australian Accounting Standards establishes a differential reporting framework consisting of two tiers of reporting requirements for preparing general purpose financial statements:

(a) Tier 1: Australian Accounting Standards; and
(b) Tier 2: Australian Accounting Standards – Reduced Disclosure Requirements.

What does this Standard require?

This Standard lists the application paragraphs for each other Standard (and Interpretation), grouped where they are the same. Accordingly, paragraphs 5 and 22 respectively specify the application paragraphs for Standards and Interpretations in general. Differing application paragraphs are set out for individual Standards and Interpretations or grouped where possible.

The application paragraphs do not affect requirements in other Standards that specify that certain paragraphs apply only to certain types of entities.

When does it apply?

This Standard is applicable to annual periods beginning on or after 1 January 2016. Earlier application is permitted.

Why have we issued this Standard?

The AASB decided at its May 2015 meeting to revise Australian Accounting Standards that incorporate International Financial Reporting Standards (IFRSs), which are issued by the International Accounting Standards Board, to minimise Australian-specific wording even further. The AASB noted that IFRSs do not contain application paragraphs that identify the entities and financial reports to which the Standards (and Interpretations) apply. Therefore, the application paragraphs previously in each Australian Accounting Standard (or Interpretation) were moved to this Standard. In doing so, the application requirements have not been amended.

For consistency, the application paragraphs of Australian-specific Standards (and Interpretations) have also been included in this Standard, without amendment. When those pronouncements are amended for other reasons, their application paragraphs are expected to be removed.

Basis for Conclusions

This Basis for Conclusions accompanies, but is not part of, AASB 1057.

BC1 This Basis for Conclusions summarises the Australian Accounting Standards Board’s considerations in reaching the conclusions in AASB 1057 Application of Australian Accounting Standards. Individual Board members gave greater weight to some factors than to others.

BC2 In 2005 when Australia transitioned to adopting International Financial Reporting Standards (IFRSs), Australian Accounting Standards (including Interpretations) were issued using IFRSs as a base. Australian-specific paragraphs (labelled as ‘Aus’ paragraphs), including application paragraphs, were added to the IFRS text. These application paragraphs identified, in each Standard, the entities and financial reports to which the Standard applied. For example, most Standards apply explicitly to reporting entities and to general purpose financial statements. Other minor amendments were also made to the IFRS text (eg Australian terminology and punctuation).

BC3 At its May 2015 meeting, the Board decided to revise Australian Accounting Standards that incorporate IFRSs to minimise Australian-specific wording even further. Therefore, because IFRSs do not contain such application paragraphs, the application paragraphs that were previously in each Australian Accounting Standard were moved to this Standard. In doing so, the application requirements have not been amended. These application paragraphs also do not affect requirements in other Standards that specify that certain paragraphs apply only to certain types of entities.

BC4 For consistency, the application paragraphs of Australian-specific Standards have also been included in this Standard, without amendment. When those Standards are amended for other reasons, their application paragraphs are expected to be removed.
